Urban Water Supply Charges 2025/26

Residential, non-residential and recycled water

The GWMWater urban tariff structure is based on the quality of water supplied and, in untreated water supply towns, the source of that water.

There are two different water qualities supplied to customers in the 71 towns throughout our region:

- Fully Treated Water Supply (also known as drinking water or potable water)
- Untreated Water Supply (also known as non-drinking water, regulated or non-potable water).

Our tariffs have been approved by the Essential Services Commission for the 2025/26 financial year and include the annual Recreation Contribution Charge of \$21.16, or \$10.58 for concession card holders. Our tariffs were advertised in various newspapers in July 2025.

A pension or concession card rebate is available to eligible holders of a Pension, Healthcare or Veteran Affairs card. To claim a concession, please call us on 1300 659 961 to confirm your eligibility.

Water Quality	Service Availability Charge*	Concessional/Community Facility Service Availability Charge	Usage Charge
Fully Treated Water Supply Residential Non-residential	\$471.20 per annum \$450.04 per annum	\$304.96 per annum	\$1.8545 per kL
Untreated Water Supply <i>Pipeline supplied and Eastern Grampians towns</i> Residential Non-residential	\$419.16 per annum \$398.00 per annum	\$304.96 per annum	\$1.6876 per kL Pipeline supplied towns \$1.3664 per kL Eastern Grampians towns
Untreated Water Supply <i>Groundwater towns</i> Residential Non-residential	\$417.04 per annum \$395.88 per annum	\$304.96 per annum	\$1.0384 per kL Groundwater towns

* Based on a 20 mm meter connected to the property

Where applicable, some customers may also access recycled water. These charges are outlined below.

Recycled Water	Usage Charge
<p>Recycled Water Charges <i>where available</i></p> <p>Usage Tariff</p> <p>Discounts may apply to sporting and other community-based groups pending eligibility.</p>	\$308.13 per megalitre
