6. Conditions for temporary water allowance trades

- The minimum volume of water allowance able to be traded is 0.1 ML.
- The 0.73 ML primary allowance associated with a house meter is not tradeable and will permanently vest with GWMWater.
- Water allowances will not be able to be traded between the Grampians and Murray delivery systems.
- Trading between supply systems will be subject to the capability of the pipeline system to deliver the additional water allowance as determined by GWMWater's hydraulic model for the affected pipeline.
- The volume of water able to be temporarily traded within a financial year will be limited to the unused seasonal allocation.
- The seller will be responsible for the fixed charges (capacity and meter charges) associated with the transferred water allowance.
- The buyer will be responsible for payment of the usage charge associated with the transferred water allowance.

7. Payment details

This form must be accompanied with the payment of the \$104.30 application fee. Payment is to be made before we can process your application. No payment is required where the trade is within the same farming enterprise. GWMWater accepts credit card payments. If paying by credit card, please provide your receipt with your application form.

To pay by credit card, visit gwmwater.org.au/payments

Click on 'Make a Payment' and follow the prompts.

Important: In the reference field, please enter your property ID number.

Privacy statement

The information from the form is collected under the *Water Act 1989*, in order to process the application, to maintain the water register, and for the provision of water market statistical information. Most of the information is available to the public.
