3. Conditions for amalgamation of water allowances

- a. Allowances must be held in common ownership or be associated to a single farming enterprise.
- b. Documentary evidence is required if allowances are not in common ownership. Eg. partnership agreement, statutory declaration, lease document, etc.
- c. The amalgamation of allowances attached to different supply systems is not permitted.
- d. The approval of amalgamations is subject to the available capacity that exists within the pipeline system as determined by GWMWater's hydraulic model for the affected pipeline.
- e. The applicant is required to nominate the names and address of the party to be billed for the amalgamated entity.
- f. The future subdivision of amalgamated allowances will require the payment of a subdivision fee which is currently \$197.40.

4. Billing details

The amalgamated entity is to be billed as follows:

Given name	Surname / Company	Contact phone number
Postal address		

5. Payment details

Application fees do not currently apply but will be charged at some point in the future.

Privacy statement

The information from the form is collected under the *Water Act 1989*, in order to process the application, to maintain the water register, and for the provision of water market statistical information. Most of the information is available to the public.
