

# Application to subdivide a water allowance

This form covers applications to subdivide water allowances issued under Section 124 of the *Water Act 1989* and supplied in accordance with the conditions contained in GWMWater's Rural Customer Charter.

The subdivision of a water allowance splits a single water allowance entity into two or more water allowance entities. Entities may be made up of more than one land parcel.

Please note that water allowances must be either associated to land parcels with existing meters, or to land parcels for which an application to connect to the rural water supply system has been lodged.

This application will not be accepted unless accompanied with payment of the application fee of \$197.40.

## 1. Owner details

Given name	Surname / Company	Signature	Date

I/We (the subdivider/s listed above) apply to subdivide the entity listed in item 2 below as per the details shown in item 3 below.

## 2. Entity to subdivide - Property ID \_\_\_\_\_ Water allowance \_\_\_\_\_ • \_\_\_\_\_ ML

Land parcel description	Meter no.	Office use only	
		Vol fol	Parcel ID

Application No. BEX

Office use only

**3. New entities following subdivision** Group land parcels in proposed new entities under Entity No)

Entity no. <i>(e.g. Entity 1, Entity 2, etc.)</i>	Land parcel description	Meter no.	Allowance (ML) <i>(for each entity)</i>	Office use only	
				Vol fol	Parcel ID

**4. Conditions for subdivision of water allowances**

- a. Water allowances will only be allocated to land that has a meter connected to the pipeline system, or for which an application to connect to pipeline has been lodged.
- b. Water allowances will be apportioned between the separate metered entities of a subdivision according to the instructions provided by the subdivider in this application.
- c. For subdivided entities with standard meters only a standard allowance of at least 100 kL must be allocated.
- d. The sharing of meters by land parcels requiring water supply created by the subdivision of water allowances is not permitted. Existing meters will be allocated to the adjacent land parcel at the time of subdivision, or for primary/house meters the land parcel with the house.
- e. The 730 kL primary allowance will remain with the primary (house) meter.

**5. Payment details**

This form must be accompanied with the payment of the \$197.40 application fee. Payment is to be made before we can process your application. GWMWater accepts credit card payments. If paying by credit card, please provide your receipt with your application form.

To pay by credit card, visit [gwmwater.org.au/payments](http://gwmwater.org.au/payments)  
 Click on 'Make a Payment' and follow the prompts.  
**Important:** In the reference field, please enter your property ID number.

**Privacy statement**

The information from the form is collected under the *Water Act 1989*, in order to process the application, to maintain the water register, and for the provision of water market statistical information. Most of the information is available to the public.
